ES WAR ZWEIMAL (TWICE UPON A TIME) [3 plus]

Dance piece by Sara Angius for all and the very youngest | Relaxed Performance

From above. From below. From the inside. From the outside. From very close and very far away. The world around us can be experienced in infinite ways. One moment it seemed like this and that, the next moment it looks completely different.

What does it take to understand the world? Curiosity and the urge to explore! What else could one need? A magic spaceship, of course, that takes you from here to »unimaginable« in no time at all. And – wuschhhh – the playground suddenly floats between planets and clouds walk on the ground!

In TWICE UPON A TIME two dancers turn the world as we know it upside down, full of the joy of discovery. This tête-à-tête of reality and fantasy is a new TDJW piece for the very youngest and their families. As a Relaxed Performance it also takes special consideration of people who prefer to experience theatre in a more relaxed atmosphere.
